INTERNATIONAL SOCIETY FOR MOLECULAR ELECTRONICS AND BIOCOMPUTING (ISMEBC)

OFFICERS

President: Michael Petty (Durham, UK)
Immediate Past President: Danilo de Rossi (Pisa, Italy)
Honorary President: Hans Kuhn (Tschingel, Switzerland)
Treasurer: Tim Richardson (Sheffield, UK)
Secretary: Péter Rajczy (Budapest, Hungary)

GOVERNING BOARD

Géza Biczó (Budapest, Hungary)
Isabelle Ledoux (Bagneux, France)
Robert W. Munn (Manchester, UK)
Toru Watsuji (Tokyo, Japan)
Ratna S. Phadke (Bombay, India)
Brian Pierce (Los Angeles, CA, USA)
Michael Schmelzer (Stuttgart, Germany)
Klaus-Peter J. Zauner (Detroit, MI, USA)

EDITORIAL BOARD

Chair: Géza Biczó (Budapest, Hungary)
Toshikiro Akaike (Yokohama, Japan)
Robert R. Birge (Syracuse, NY, USA)
Felix T. Hong (Detroit, MI, USA)
Gen Matsumoto (Tsukuba-shi, Japan)
Executive Publisher: Péter Rajczy (Budapest, Hungary)
Harold Szu (Silver Spring, MD, USA)
Ann E. Tate (Dahlgren, VA, USA)
Alexander N. Vtyurin (Krasnoyarsk, Russia)
Kenichi Yoshikawa (Nagoya, Japan)

THE INTERNATIONAL SOCIETY FOR MOLECULAR ELECTRONICS AND BIOCOMPUTING was founded on 27 May, 1991, in Balatonszéplak, Hungary as a non-profit international society—and chartered by the Court of Justice of Budapest in Budapest, HUNGARY, on 15 July, 1991, under registration no. 3785. It fosters the interdisciplinary study of molecular electronics, ionics and photonics and information processing in natural and artificial molecular and biomolecular systems. The Society promotes both fundamental and applied research.

This newsletter is published to promote information exchange among scientists working in both fundamental and applied research, and distributed among the members of the Society, researchers in related fields, and others interested in molecular electronics and biocomputing.

The Society invites your interest and membership. Dues are 40 USD yearly (retired and student, USD 20). Details and information on alternate dues for certain countries, are contained on the membership form in this issue.

Comments and inputs for the newsletter are always welcome. To arrange for bulk mailings of the newsletter or to comment on its contents, please contact Géza Biczó, Ctr Res Inst of Chemistry, HAS, H-1525 Budapest 114, P.O.Box 17, HUNGARY, Tel +36-1-325-7900; Fax +36-1-325-7554; Email mebc@mebc.elte.hu, mebc@cric.chemres.hu
